

WATER MANAGEMENT POLICY

We at **COHIZON LIFE SCIENCES LIMITED**, are committed to water conservation as a core principle in all our business operations.

We are committed to sustainable growth through:

- **Compliance and Leadership:**
 - o Comply with all applicable water-related laws and regulations.
 - o Strive to be an industry leader in water conservation and management.
- **Water Stewardship:**
 - o Responsibly use and scientifically manage water resources to minimize water footprint.
 - o Promote water conservation through Reduce, Reuse, Recycle, Restore, and Recover practices.
- **Efficient Technologies:**
 - o Implement the best available cost-effective technologies for water-efficient operations.
 - o Reduce water consumption and minimize water wastage.
- **Water Risk Assessment:**
 - o Conduct regular assessments to identify and mitigate water-related risks, such as water scarcity, pollution, and climate change impacts.
- **Water Quality Management:**
 - o Implement measures to ensure the quality of water sources used and discharged.
 - o Prevent water pollution and contamination.
- **Sustainable Sourcing:**
 - o Prioritize sourcing from suppliers with responsible water management practices.
- **Monitoring and Reporting:**
 - o Monitor, measure, and review water consumption and usage to minimize risks.
 - o Provide adequate financial and human resources for continual improvement in water resource management.
- **Stakeholder Engagement:**
 - o Educate stakeholders and interested parties about water conservation.
 - o Collaborate with stakeholders to address water-related challenges.
- **Community Engagement:**
 - o Collaborate with local communities on water conservation projects and address water-related concerns.

Governance and Implementation:

- **ESG Committee Oversight:** The ESG Committee will provide strategic guidance and oversight for water conservation initiatives.
- **Procedures and Governance:** Establish clear procedures and governance mechanisms for effective policy implementation.
- **Water Efficiency Targets:** Set specific, measurable, achievable, relevant, and time-bound (SMART) targets for reducing water consumption and improving water efficiency.
- **International Standards:** Align practices with relevant international standards.

This policy applies to all COHIZON LIFE SCIENCES LIMITED operations, including research and development, product manufacturing, distribution, sales, and supply chain activities, across all locations.

Rajesh Kumar Srivastava
Managing Director & CEO
